SUMMARY OF WORK

Amigos de Terceira has been an active participant in the Portuguese American Citizenship Project since late 2002.

For the 2008 September Statewide Primary Elections and the November Presidential Elections, postcards in Portuguese and English were sent to every registered voter in the organization reminding them of the date, location, and polling hours for each election.

* Voter turnout is the number of citizens voting in an election divided by the total number of citizens registered to vote. Voter turnout for each election is based on Rhode Island residents only.

RESULTS

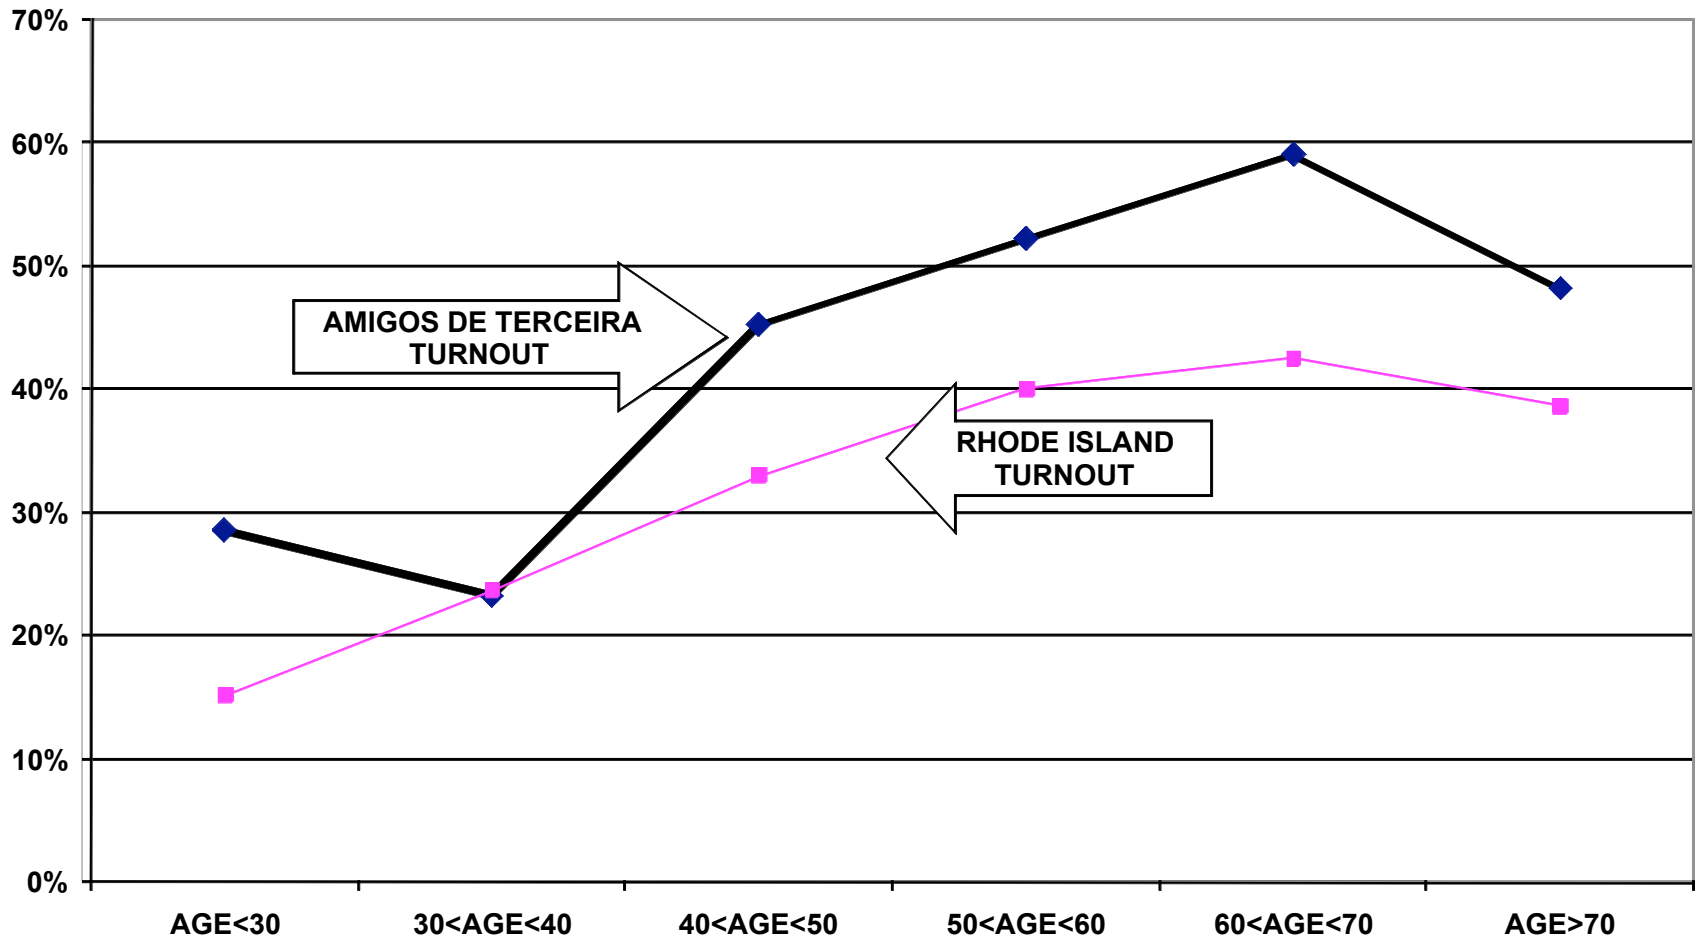

Amigos de Terceira's heads of household voter turnout was higher than the statewide turnout in the 2008 September Statewide Primary Election and the November Presidential Election. Heads of household turnout for the September Statewide Primary Elections was 28%, as compared to the state turnout of 9%. Amigos de Terceira's heads of household turnout for the November Presidential Elections was 77%, as compared to the state turnout of 68%.

Voter turnout is not uniform across age groups. Voters under 30 years of age and even those between 30 and 40 years old had lower turnout rates than the older voters. This is true among all registered voters in the organization and among registered voters in the community at large.

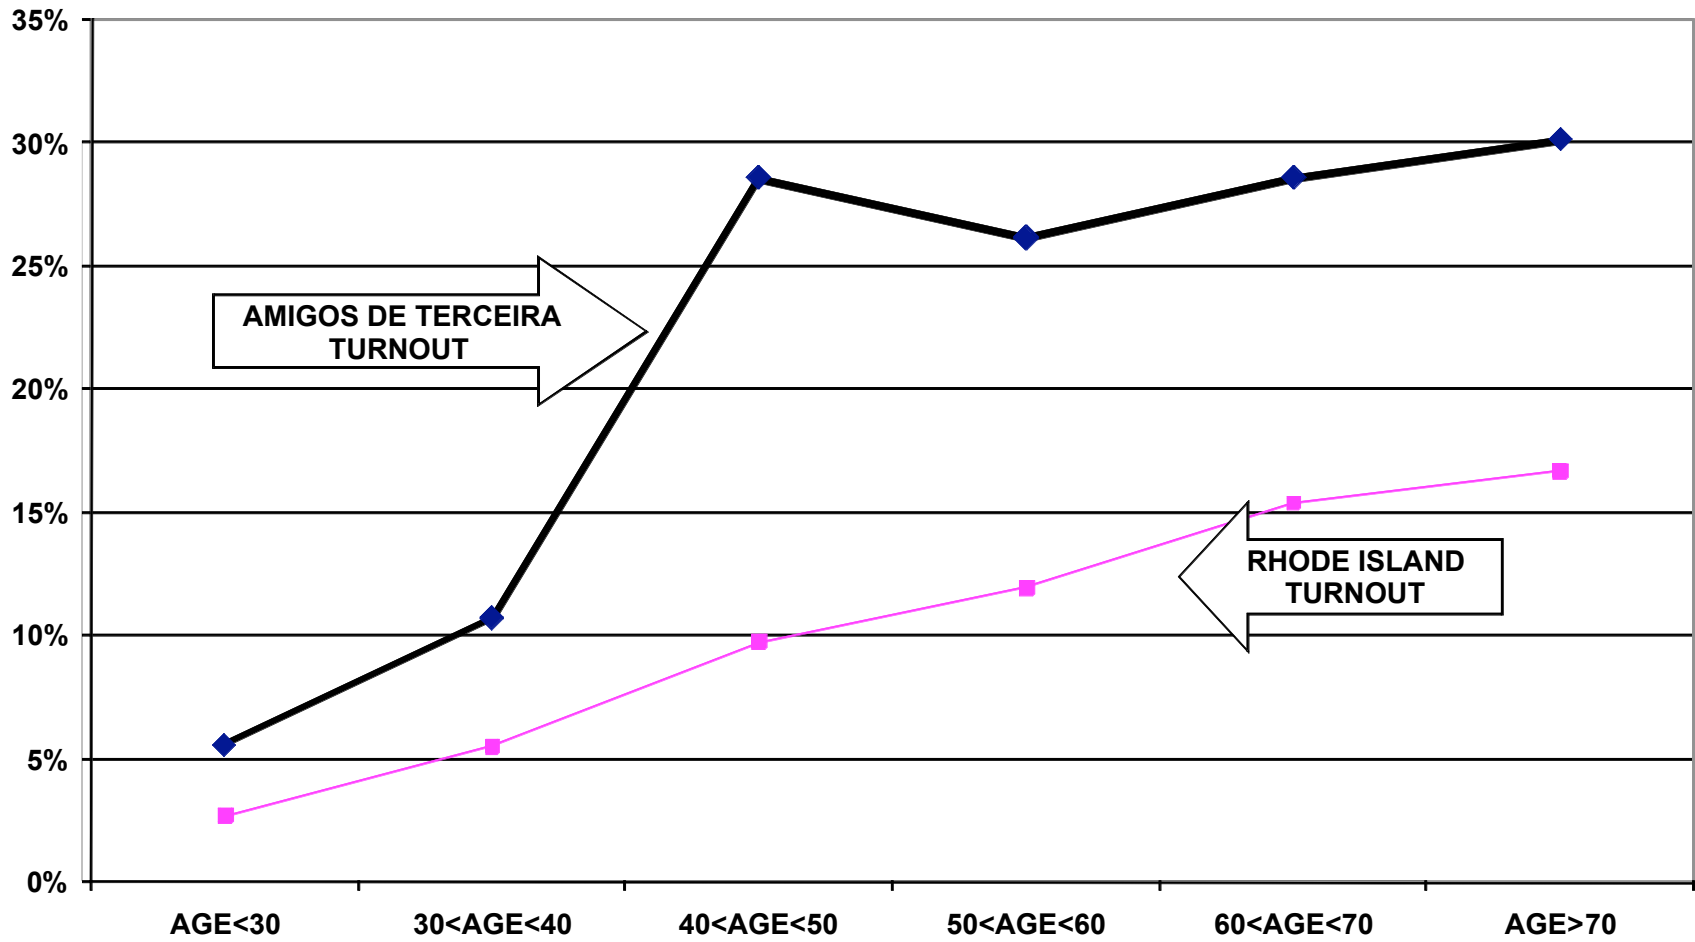

For example, voters under 30 years old associated with Amigos de Terceira had a 6% turnout rate in the September Statewide Primary elections, while voters between 60 and 70 years old had a 29% turnout rate. For the November Presidential elections, voters under 30 years old had a 60% turnout rate, while those between 60 and 70 years old had an 80% turnout rate.

The following graphs for the 2008 March, September, and November elections illustrate the relationship between turnout rates and age. These graphs refer to all family members associated with the group, not just heads of household.

RECOMMENDATIONS

- The club must determine if and how it will provide funding for the costs of participation in the Citizenship Project. The Luso American Foundation has completed 10 years of financial support for the Project but will terminate this support for 2009 and beyond. In 2009, the Project will continue to provide data processing and assist in the preparation of voter cards. With a mailing permit, the cost of printing and mailing the cards for a September Primary, and November General elections is approximately \$480.
- If the club cannot provide the financial support for this mailing and/or cannot accomplish the logistics of printing and mailing the voter cards, interested members of the community should examine the accomplishments of the past ten years and determine how to build on these achievements using alternative methods of promoting civic participation.
